

# Is Your Business Healthy?

Ask Yourself These Diagnostic Questions To Determine If You Need a Business Checkup:

**Have You Had Tax Surprises?** Don't let your business be stressed out by a high and unexpected tax liability! Unexpected interest and/or penalties due to poor tax planning result in a cash flow drain that disrupts your business.

**Have You Had To File Extensions?** Businesses need their tax returns filed on time. This ensures better and quicker year-end numbers AND better budgeting. Filing promptly lessens the likelihood of penalties and interest!

**Have You Received Tax Notices?** If you have received IRS or state tax notices about inaccuracies or late payments, you know that responding to these notices is very time consuming!

**Are You Interested In Increasing Your Tax Savings and Business Profits?** Proper tax planning increases cash flow to grow your business. Ensure that you are getting every tax break available to your business. We show you how to keep more of your money!

**Are You Managing Your Business By The Numbers?** Numbers don't lie! We provide proactive monitoring of your financial records. This gives you the clarity you need to manage your business properly. We always have our finger on the financial pulse of your business and are eager to discuss how to move your business forward!

**Do You Have Work/Life Balance?** Many business owners work too much and have little free time. We take care of your financial details so you can passionately pursue your business goals and take some vacation. We save you time, money, and give you peace of mind!

At Bryant & Associates P.C., we monitor the health of your business all year long. Make an appointment today for a face-to-face consultation. We will give your business a thorough checkup to see how we can help your business reach its true potential.
